

**CONSULTATION ON DRAFT PROVISIONS IN THE FOOD SAFETY AND SECURITY  
BILL**

**ANNEX IV: FEEDBACK TEMPLATE FOR AGRI-PRODUCTION INPUTS (ANIMAL FEED  
AND PESTICIDES)**

**ANIMAL FEED**

1. As an animal feed production licensee, what are your views about having to prepare, maintain and adhere to a feed control plan unique to your business in order to minimise risks and assure fitness of the animal feed in your respective production processes?

2. Do you have alternative suggestions on how to better to minimise risks and assure fitness of the animal feed in your respective production processes?

Option: Yes / No

2a. If "Yes", what would your suggestions be?

3. Do you foresee any challenges in preparing, maintaining and adhering to a feed control plan which SFA accepts?

4. Do you consider the requirement for animal feed production licensees to keep proper records and have procedures for traceability and recall of the animal feed that is supplied helpful in ensuring integrity of animal feed supply?

Option: Yes/No

4a. If "No", please state why.

- 4b. Do you have alternative suggestions on how the licensee can efficiently trace and recall the animal feed in the event of an incident?

5. What potential challenges (if any) do you foresee having to comply with the requirement for animal feed production licensees to keep proper records and have procedures for traceability and recall of the animal feed that is supplied? (optional)

6. If you are a business which manufactures animal feed for both food producing animals and non-food producing animals (e.g. pet food), what do you think of having to obtain separate licenses from SFA and NParks' respectively? (optional)

7. Any other comments? (optional)

## **PLANT PESTICIDES**

1. Ornamental plants are generally not intended for human consumption, but there are some ornamental plants that are edible (e.g. hibiscus or kumquat plant). Do you prefer that pesticides used on such ornamental plants which can also be edible must be registered under FSSB?

Option: Yes/No

1a. Please explain why.

2. What potential challenges (if any) do you foresee if premises cultivating ornamental plants that are edible, are required to use registered pesticides and engage a certified pesticide operator to apply or supervise the use of registered plant pesticides? (optional)

3. Pesticide products for use on edible plants will be registered under FSSB and those for use on non-edible plants will no longer need to be registered under COPA. Do you foresee any problems for the industry as the registrations of such pesticides will no longer be valid after the COPA is amended?

Option: Yes/No

3a. If "Yes", please elaborate on your concerns/considerations.
