

FINAL PHASE OF RELEASE OF RECALLED CHINA MILK PRODUCTS

The Agri-Food & Veterinary Authority (AVA) has completed batch-testing of the products in the remaining categories - biscuits and crackers, liquid milk, ice-cream, and milk and whey protein products, under the planned phased release of recalled China milk products.

2 With the exception of six (6) biscuit products that tested positive for melamine, products in these categories have cleared the pre-release testing and will be released for sale with immediate effect.

3 The six biscuit products contaminated with melamine are:

- i) Baby Looney Tunes Cream Filled Biscuits Assorted Family Pack
- ii) C & OK Vigour 888 Egg & Milk
- iii) Khong Guan Mini Burger Biscuit Bulk Pack
- iv) Liluo Fruit P.D. Almond Flavor
- v) Potter Potato Chips Pizza
- vi) Tom & Jerry Cheese Balls

4 The China-made biscuits listed above have been recalled since 19 September 2008 and will be destroyed under AVA's supervision. This brings the total number of affected China milk products to 22. Details of the affected China milk products are attached at **Annex A**.

5 AVA would like to assure the public that the levels of melamine detected in the affected products are low and hence unlikely to result in any adverse health effect. Consumers have to consume large quantities of the contaminated products over a prolonged period of time to be at risk of potential ill effects on health.
