

**The Royals (Premium Cakes) Pte Ltd is allowed to resume its factory operation from 5 June 2009.**

AVA has completed its investigation on the contamination incident at the factory of The Royals (Premium Cakes) Pte Ltd. Apart from detection of chlorine in the contaminated products (chicken pie filling and sugar syrup), no other hazardous chemicals were detected by the laboratory tests. The contaminated ingredients had not been used as the factory staff had been quick in detecting the contamination and preventing the contaminated ingredients from being used in production of confectionary products.

2 The Royals (Premium Cakes) Pte Ltd has also destroyed all its existing stocks of the products, including opened packets/containers of ingredients, as well as semi-processed and finished products and has thoroughly cleaned up the factory during the closure.

3 The Royals (Premium Cakes) Pte Ltd is allowed to resume its factory operation from 5 June 2009.
