4 In Singapore, food imports must meet SFA's requirements. Fruits and vegetables can only be imported by licensed importers, and every consignment must be declared and accompanied with a valid import permit. Illegally imported vegetables are of unknown sources and can pose a food safety risk (e.g. if unregulated or high level of pesticides are used). The long-term ingestion of excessive pesticide residues through the consumption of vegetables that have been subjected to pesticide abuse could lead to adverse health effects.

5 Offenders who illegally import fresh fruits and vegetables shall be liable on conviction to a maximum fine of \$10,000 and/or imprisonment for a term not exceeding three years. Offenders who illegally import processed fruits and vegetables shall be liable on conviction to a fine not exceeding \$1,000 and in the case of a subsequent conviction, to a fine not exceeding \$2,000.

6 Safeguarding Singapore's borders remains top priority for ICA. ICA will continue to conduct security checks to detect and deter illegal importation attempts so as to
